

Intruder alarm HKC App

The Intruder Alarm APP allows you to access your intruder alarm via your Smartphone or tablet to set/unset your Intruder alarm system realtime.

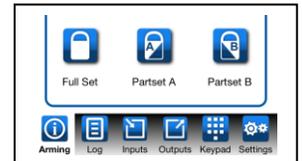

It is very easy to use and allows you to monitor and control your HKC intruder alarm system from any location using your smartphone. The App is available to download from Apple and Android and Microsoft smart phones.

When you open the App you will be prompted to enter your user code to log in. This is the same user code you use to operate your intruder alarm system. Enter your code and press connect and you will be redirected to the first screen of the APP.

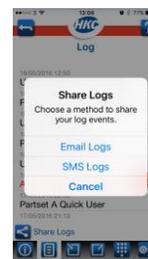

On this page you will see the alarm status and there are some 'quick set' options.

On this screen you can choose to Full Set or part Set by selecting the relevant icon. This will be confirm by the voice on the App and the status will change from UNSET to ARMED in the status section of the APP. It can also be used to unset the system if the system is already armed.

At the very bottom of the screen there are other icons which provide further details. If you select the Log icon you will be taken to the log event screen where you can see and share the last 100 log events from the alarm log. Any event can be shared via email or SMS by selecting the Share icon.

If you want to set up the HKC app with Security and Risk Communications please complete the DD mandate below.

The Annual charge for the APP is taken by DD directly from Security and risk. Charges are as follows
Commercial customers € 17.99 per month or €215.00 per annum inc VAT
Residential Customers €7.00 per month or €84.00 per annum inc VAT
